

Chapter 14 – AEA Glossary and Index

Alternative Education Accountability Gold Performance Acknowledgment (AEA GPA):

Recognizes charters and campuses rated *AEA: Academically Acceptable* for high performance on indicators other than those used to determine accountability ratings. Acknowledgment is given for high performance on:

- Advanced Course/Dual Enrollment Completion
- Advanced Placement/International Baccalaureate (AP/IB) Results
- Attendance Rate
- College-Ready Graduates
- Commended Performance: Reading/English Language Arts (ELA); Mathematics; Writing; Science; and Social Studies
- Recommended High School Program/Distinguished Achievement Program (RHSP/DAP)
- SAT/ACT Results (College Admissions Tests)
- Texas Success Initiative – Higher Education Readiness Component: ELA and Mathematics

See *Chapter 13 – AEA GPA* for detailed information.

Alternative Education Campus (AEC) of Choice: Alternative education programs provide accelerated instructional services to students at risk of dropping out of school. At-risk students enroll at AECs of Choice to expedite progress toward performing at grade level and high school completion.

Annual Dropout Rate: Grade 7-12 dropouts as a percent of total students enrolled at the AEC in grades 7-12 in a single school year. The National Center for Education Statistics (NCES) Dropout Definition is later in this chapter.

At-Risk: In accordance with Texas Education Code (TEC) §29.081(d), a "student at risk of dropping out of school" includes each student who is under 21 years of age and who:

- (1) was not advanced from one grade level to the next for one or more school years;
- (2) if the student is in grade 7, 8, 9, 10, 11, or 12, did not maintain an average equivalent to 70 on a scale of 100 in two or more subjects in the foundation curriculum during a semester in the preceding or current school year or is not maintaining such an average in two or more subjects in the foundation curriculum in the current semester;
- (3) did not perform satisfactorily on an assessment instrument administered to the student under TEC Subchapter B, Chapter 39, and who has not in the previous or current school year subsequently performed on that instrument or another appropriate instrument at a level equal to at least 110 percent of the level of satisfactory performance on that instrument;
- (4) if the student is in prekindergarten, kindergarten, or grade 1, 2, or 3, did not perform satisfactorily on a readiness test or assessment instrument administered during the current school year;
- (5) is pregnant or is a parent;
- (6) has been placed in an alternative education program in accordance with TEC §37.006 during the preceding or current school year;

- (7) has been expelled in accordance with TEC §37.007 during the preceding or current school year;
- (8) is currently on parole, probation, deferred prosecution, or other conditional release;
- (9) was previously reported through the Public Education Information Management System (PEIMS) to have dropped out of school;
- (10) is a student of limited English proficiency, as defined by TEC §29.052;
- (11) is in the custody or care of the Department of Protective and Regulatory Services or has, during the current school year, been referred to the department by a school official, officer of the juvenile court, or law enforcement official;
- (12) is homeless, as defined by 42 U.S.C. Section 11302, and its subsequent amendments; or
- (13) resided in the preceding school year or resides in the current school year in a residential placement facility in the district, including a detention facility, substance abuse treatment facility, emergency shelter, psychiatric hospital, halfway house, or foster group home.

Campus Accountability Subset: Only test results for students enrolled on the same campus on the PEIMS enrollment snapshot date (the last Friday in October) and on the testing date are included in the campus performance measure.

Completion Rate II Indicator: Longitudinal rate that shows the percent of students who graduate, receive a General Educational Development (GED) certificate, or who are continuing their education four years after first attending grade 9. These students' progress is tracked over the four years using data provided to the Texas Education Agency (TEA) by districts and charters and data available in the statewide GED database. Graduates, continuing students (students who return to school for a fifth year), and GED recipients are counted as completers in the calculation of Completion Rate II.

District Accountability Subset: Only test results for students enrolled in the same charter on the PEIMS enrollment snapshot date (the last Friday in October) and on the testing date are included in the charter performance measure.

Hurricane Ike Provision: If the 2009 rating is *AEA: Academically Unacceptable*, then eligible charters and AECs will be rated *AEA: Not Rated – Other*.

NCES Dropout Definition: Under this definition, a dropout is a student who is enrolled in Texas public school in grade 7-12, does not return to Texas public school the following fall, is not expelled, and does not graduate, receive a GED certificate, continue high school outside the Texas public school system or begin college, or die. See *Appendix I* for more information.

Registered AEC: Term used to refer collectively to AECs of Choice and Residential Facilities that are registered for evaluation under AEA procedures and meet the at-risk registration criterion.

Required Improvement: Compares prior-year performance to current-year performance. In order to qualify for this comparison, the target group (All Students or any student group) must meet a minimum size requirement for the prior year.

Residential Facility: Education services are provided to students in residential programs and facilities operated under contract with the Texas Youth Commission (TYC), students in detention centers and correctional facilities that are registered with the Texas Juvenile Probation Commission (TJPC), and students in private residential treatment centers.

School Leaver Provision (SLP) for 2009. In April 2008, the Commissioner of Education announced that the 2009 SLP would apply only to the Annual Dropout Rate indicator evaluated under AEA procedures. However, revising the Annual Dropout Rate standard to 20.0% eliminates the need to use the SLP in 2009 and beyond.

Special Analysis: Ensures that ratings based on small numbers of tests are assigned appropriately. Special Analysis consists of analyzing current and past performance data to determine if the initial rating assigned under the automated evaluation process is an aberration or an indication of consistent performance. Special analysis is conducted at the AEC level when there are fewer than 10 at-risk TAKS tests in the district or charter. Special analysis is conducted at the charter level when there are fewer than 10 TAKS tests in the charter.

TAKS (Accommodated): This assessment has the same questions as the TAKS, but allows certain accommodations for students with disabilities. Performance on these tests is being phased into the accountability system over three years. The TAKS (Accommodated) results below are included in the TAKS Progress indicator beginning in 2008. In 2010, performance on all TAKS (Accommodated) tests will be used in the accountability system.

- English Language Arts (ELA) (grade 11)
- Mathematics (grade 11)
- Science (grades 5, 8, 10, and 11; grade 5 Spanish)
- Social Studies (grades 8, 10, and 11)

TAKS Progress Indicator: The TAKS Progress indicator includes TAKS tests meeting the student passing standard *or* meeting the Texas Projection Measure (TPM) at grades 3-10 *or* meeting the Texas Growth Index (TGI) grade 11 *and* TAKS exit-level retests meeting the student passing standard at the spring administrations (April/May and March) or in the previous fall or summer (October and July).

Texas Growth Index (TGI): Developed for accountability purposes to evaluate individual student growth from one year to the next on the TAKS. The TGI compares how students taking a TAKS subject test in one year perform on the same TAKS subject test in the next higher grade the following year. An individual TGI score indicates the amount of growth for each student in relation to the average growth of all students who performed at the same level in the base year. The TGI score of zero (0) indicates that the year-to-year change in scale score is equal to the average change. The TGI measures growth for a student who passes as well as a student who does not pass the TAKS.

Texas Projection Measure (TPM): TPM is a multi-level regression-based model that predicts student performance by subject in the next high-stakes grade (5, 8, and 11). A student projected to be at or above proficiency in the next high stakes grade is determined to have met the improvement standard.
