

Texas School Accountability Dashboard

- Per House Bill 5, the Texas School Accountability Dashboard provides a comparison reporting system for districts and campuses based on 2014 performance index results of the fully-implemented state accountability rating system.
- Public release of dashboard reports has been changed from December 19 to January 13.
- Initial release meets the following statutory requirements of TEC§ 39.309. Additional enhancements will be made in future releases.

Statutory Requirements of TEC §39.309

- (a) The agency shall develop and maintain an Internet website, separate from the agency's Internet website, to be known as the Texas School Accountability Dashboard for the public to access school district and campus accountability information.
- (b) The commissioner shall adopt, for use on the Texas School Accountability Dashboard, a performance index in each of the following areas:
 - (1) student achievement;
 - (2) student progress;
 - (3) closing performance gaps; and
 - (4) postsecondary readiness.
- (c) The Texas School Accountability Dashboard developed under Subsection (a) must include:
 - (1) performance information for each school district and campus in areas specified by Subsection (b) and must allow for comparison between districts and campuses in each of the areas;
 - (2) a comparison of the number of students enrolled in each school district, including:
 - (A) the percentage of students of limited English proficiency, as defined by Section 29.052;
 - (B) the percentage of students who are unschooled asylees or refugees, as defined by Section 39.027(a-1);
 - (C) the percentage of students who are educationally disadvantaged; and
 - (D) the percentage of students with disabilities;
 - (3) a comparison of performance information for each district and campus disaggregated by race, ethnicity, and populations served by special programs, including special education, bilingual education, and special language programs; and
 - (4) a comparison of performance information by subject area.
- Individual dashboard reports can be generated for any district or campus in the state.

OR
- Dashboard reports can provide side-by-side comparisons for any two districts or campuses in the state selected by the user.

OR
- Dashboard reports can provide side-by-side comparisons for two districts or campuses with similar characteristics.
